

INNOVATIVE CORROSION CONTROL

Innovative Corrosion Control (ICC) is an environmental firm focusing on corrosion protection of underground and aboveground metallic structures. ICC offers products and services to a multitude of different industries. This offering, of course, includes cathodic protection, design, installation and monitoring, but also a wide array of support services. These services include, education, material supply, coating selection assistance, and other professional services. ICC completes all work “in house” with qualified personnel, extensively trained. At ICC, we truly believe in;

Protecting Each Site As Our Own
